LD 4 An Act To Promote Industrial Hemp

**PUBLIC 202
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SANDERSON HAMPER	OTP-AM	H-41

This bill removes the requirements that an applicant for an initial license to grow industrial hemp for commercial purposes must submit a set of the applicant's fingerprints and file with the Commissioner of Agriculture, Conservation and Forestry documentation indicating that the seeds planted were a type and variety of hemp approved by the commissioner. The bill also repeals the provision that licensure is contingent upon action by the federal government.

This bill requires that any hemp seeds acquired for cultivation of hemp in the State must come from an approved Canadian producer of hemp seeds. The bill allows the commissioner to issue licenses for hemp seed distribution to holders of seed labeling licenses. The bill also allows hemp growers licensed by the State to acquire hemp seeds directly from a producer in Canada or from a State-licensed hemp seed distributor. The bill requires that application fees and license fees must be established by major substantive rules. The bill also includes an appropriations and allocations section.

Committee Amendment "A" (H-41)

This amendment adds an emergency preamble and emergency clause to the bill.

The amendment provides that hemp seeds acquired for cultivation of hemp in the State may come from any certified seed source rather than only approved Canadian producers of hemp seeds. The amendment provides that rules adopted by the Department of Agriculture, Conservation and Forestry pursuant to the Maine Revised Statutes, Title 7, section 2231 are routine technical rules. The amendment includes the addition of per acre fees for monitoring, sampling and testing and establishes a range and cap for all fees established by the Commissioner of Agriculture, Conservation and Forestry related to industrial hemp production. The amendment also replaces the appropriations and allocations section.

Enacted Law Summary

This bill:

1. Amends the legislative findings of the Maine Wind Energy Act, adding emphasis to public consideration and participation in decisions related to expedited wind energy development siting;
2. Directs the Maine Land Use Planning Commission, through rulemaking, to create a provisional expedited permitting area comprised of unorganized and deorganized areas of the State, which were previously included in the expedited permitting area, with specific exceptions to recognize existing expedited wind energy developments; and
3. Amends the statutory criteria for adding specified places to the expedited permitting area and adds a requirement that a petition to add a specified place to the expedited permitting area must involve a public hearing if written requests for a public hearing are received from five or more persons.

Committee Amendment "A" (H-374)

This amendment, which is the majority report of the committee, replaces the bill. It amends the laws governing expedited permitting of wind energy development in the Maine Revised Statutes, Title 35-A, chapter 34-A. It makes the following changes to current law.

1. It provides the Maine Land Use Planning Commission with the authority to remove, by rule, a specified place within the unorganized and deorganized areas from the expedited permitting area.
2. It provides that the Maine Land Use Planning Commission is not required to provide notice to the Legislature when it adopts a rule to remove a specified place from the expedited permitting area.
3. It amends existing definitions, adds new definitions and provides corresponding cross-references in Title 12 and in the public law that enacted Title 35-A, chapter 34-A to the new removal process.

House Amendment "A" To Committee Amendment "A" (H-393)

This amendment also reduces the percentage of resident voters who must sign a petition seeking removal of a specified place from the expedited permitting area from 50 percent, as proposed in Committee Amendment "A," to 10 percent.

This amendment was not adopted.

Senate Amendment "A" To Committee Amendment "A" (S-307)

most recent gubernatorial election petition for removal of a specified place in the unorganized and deorganized areas from the expedited permitting area, after the required notice, if no person requests substantive review of the petition the specified place must be removed. If review is requested, there must be an opportunity for public comment and, if requested by five or more persons, a public hearing. The Maine Land Use Planning Commission may recover the actual cost of a requested review of a petition from the person making the request. When conducting substantive review of a petition for removal, the commission must grant the petition and remove the specified place from the expedited permitting area if the commission determines the removal will not have an unreasonable adverse effect on the State's ability to meet its goals for wind energy development and is consistent with the principal values and the goals of the commission's comprehensive land use plan. The amendment removes the requirement that all signers of a petition must be permanent residents of the township, plantation or municipality, extends the deadline by which petitions may be filed to June 30, 2016 and establishes an effective date of the legislation of January 1, 2016.

LD 1021 An Act To Amend the Laws Pertaining to the Maine Public Employees Retirement System

CARRIED OVER

Sponsor(s)

ROTUNDO

Committee Report

Amendments Adopted

This bill does the following.

1. It clarifies that cost-of-living adjustments for benefit recipients from the Governor's Retirement Fund are the same as those paid to benefit recipients from the State Employee and Teacher Retirement Program.
2. It clarifies the authority and responsibilities of the Board of Trustees of the Maine Public Employees Retirement System with respect to eligibility and membership issues that arise in the context of the Participating Local District Retirement Program. In *Kennebec County v. Maine Public Employees Retirement System*, 2014 ME 26 (February 20, 2014), the Law Court held that the retirement system did not have the statutory authority to make final administrative decisions with respect to enrollment election matters, when the local employer's employees were not members of the Maine Public Employees Retirement System. This bill provides explicit statutory authority for the retirement system and the board to continue to make such determinations, as they had prior to the court's decision. Consistent adherence to federal law is required to ensure that the retirement plan of the Maine Public Employees Retirement System remains a qualified governmental retirement plan entitled to favorable tax treatment under the United States Internal Revenue Code of 1986, as amended.
3. It codifies language enacted in Public Law 2007, chapter 240, Part U, section 8 to make clear that administrative costs and expenses attributable to the administrative operating budget of the Maine Public Employees Retirement System are charged against the assets of applicable funds.
4. It repeals obsolete language pertaining to information included in the retirement system's annual report to the Legislature.

Public Law 2007, chapter 653, the so-called jail consolidation law, enacted changes to the correctional laws, including creating a State Board of Corrections, for the purpose of developing and implementing a unified correctional system. The public law established a cap on tax assessments for correctional services for each county based on the fiscal year 2007-08 county tax assessment for correctional-related expenditures and prohibited the counties from collecting taxes from the municipalities for the purpose of retiring any correctional services debt issued after July 1, 2008.

This bill repeals the changes that were made by Public Law 2007, chapter 653, eliminating the State Board of Corrections and all of its duties, and returns the law to the form it was in prior to jail consolidation. This bill requires that the State continue to provide funding to the counties in the same amount that it did in fiscal year 2014-15, \$12,202,104.

6. It requires the Commissioner of Corrections to adopt rules to establish mandatory standards, policies and procedures for the jails, including rules on reporting daily census data, and requires the commissioner to work with the jails to assist them in achieving compliance and to impose monetary penalties for noncompliance.
7. It requires the Commissioner of Corrections to receive, administer and distribute on a quarterly basis funding for the jails.
8. It requires the Department of Corrections, in collaboration with statewide associations of sheriffs and county commissioners, to annually submit a report to the joint standing committee of the Legislature having

This bill expands the crime of stalking to include conduct directed at or concerning a group of persons. This new classification of stalking is a Class C crime, as opposed to a Class D crime for stalking a single individual. Subsequent convictions are still a Class C crime, but the bill adds a mandatory minimum sentence of one year. Prior conviction of stalking a group of persons escalates the penalty to that for a Class B crime, with a mandatory minimum sentence of two years.

The amendment replaces the minimum sentence for a second or subsequent conviction of stalking with a requirement that the court use a two-step process, first determining a base term of imprisonment of one year and then considering the fact of the stalking and aggravating and mitigating factors, including the impact on the victim, when determining the length of the term of imprisonment. LD 1029 An Act To Improve Maine's Juvenile Justice System

Veto Sustained

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DION GERZOFSKY	OTP-AM OTP-AM	H-235

This bill directs juvenile community corrections officers, when determining alternatives based on preliminary investigations, and the court, when entering a dispositional order for an adjudicated juvenile, to consider that whenever possible and appropriate the juvenile be referred to participate in a program intended to increase community safety by reducing the likelihood of future illegal behavior by the juvenile, to hold the juvenile accountable to the juvenile's victims and the community and to assist the juvenile in becoming a responsible and productive member of society.

The bill prohibits the use of physical restraints on a juvenile during a court proceeding and specifies that restraints must be removed prior to the juvenile's appearance before the court unless a Juvenile Court Judge finds that use of restraints is necessary because the present behavior of the juvenile represents a current threat to that juvenile's safety or the safety of others in the courtroom; recent disruptive courtroom behavior of the juvenile has placed others in potentially harmful situations or presents a substantial risk of inflicting physical harm on that juvenile or others; present behavior of the juvenile presents a substantial risk of flight from the courtroom; or less restrictive restraints are unavailable.

Prior to a juvenile's appearance in court, the court is directed to inquire of the transporting agency and the judicial marshal or other designated court security as to whether reasonable grounds exist for the use of physical restraints in a particular situation or for a particular juvenile. If the transporting agency or the judicial marshal or other designated court security raises a concern that reasonable grounds exist for the use of physical restraints, the burden at hearing is on the juvenile to show by a preponderance of the evidence that reasonable grounds for use of physical restraints do not exist or that a less restrictive alternative that will alleviate the need for physical restraints exists. The court is directed to permit testimony on the issue of whether the use of physical restraints is necessary in a particular situation or for a particular juvenile.

The bill also amends the provisions regarding the dissemination of certain juvenile court records to specify that dissemination may be allowed only with the consent of the court, after hearing, taking into consideration the purposes of the Maine Juvenile Code. The bill specifies that police records, juvenile community corrections officers' records and all other reports of social and clinical studies may not be open to inspection in cases not open to the general public, and in cases that are open to the general public those records may be open to inspection only with the consent of the court, after hearing, taking into consideration the purposes of the Maine Juvenile Code and the need of the person seeking to inspect the records to access the information through this process. The juvenile, counsel who represented the juvenile at the adjudicatory or dispositional hearing and the district attorney must be given notice of the hearing and an opportunity to be heard.

Committee Amendment "A" (H-235)

This amendment is the majority report of the committee. The amendment deletes the phrase "whenever possible

Joint Standing Committee on Criminal Justice and Public Safety

and appropriate" from the bill as it relates to the circumstances under which a juvenile participates in a program intended to increase community safety, hold the juvenile accountable and assist the juvenile in becoming a responsible and productive member of society. The amendment directs the Criminal Law Advisory Committee to review the laws regarding confidentiality and access to records of court proceedings pertaining to police records, juvenile community corrections officers' records and all other reports of social and clinical studies pertaining to juveniles and to report to the Joint Standing Committee on Criminal Justice and Public Safety by January 1, 2016 with any recommendations and necessary legislation. The amendment authorizes the committee to submit legislation to the Second Regular Session of the 127th Legislature. The amendment revises the procedure for the court to determine whether grounds for the use of restraints exist and adds to the grounds that past behavior of the juvenile presents a substantial risk that the juvenile's safety or the safety of others in the courtroom is threatened.

Committee Amendment "B" (H-236)

This amendment is the minority report of the committee. The amendment replaces the bill. The amendment directs the Criminal Law Advisory Commission to review the laws regarding confidentiality and access to records of court proceedings pertaining to police records, juvenile community corrections officers' records and all other reports of social and clinical studies pertaining to juveniles and to report to the Joint Standing Committee on Criminal Justice and Public Safety by January 1, 2016 with any recommendations and necessary legislation. Committee Amendment "A" (H-488)

This amendment, which is the minority report of the committee. It retains the structure of the bill that legalizes personal use of marijuana by adults 21 years of age and older, that establishes a system of regulation of marijuana establishments and marijuana transportation providers within the Department of Administrative and Financial Services, Bureau of Alcoholic Beverages and Lottery Operations and that imposes a tax of 10% on retail sales of marijuana and marijuana products. The amendment does the following:

1. It amends taxation provisions in the bill to provide the structure for the payment of taxes and administration by the Bureau of Revenue Services;
2. It corrects the confusing use of the term "minor" in the bill, which was intended to cover persons through 20 years of age, by referring to persons too young to be allowed personal use of marijuana as "underage persons";
3. It provides maximum penalties for underage persons with respect to the purchase, consumption and possession of marijuana and with respect to other prohibited acts related to marijuana. It allows a judge to assign an underage person to perform specified work for a public entity or charitable institution as an alternative to these penalties;
4. In the provisions on possession of marijuana it reduces from six to three the number of marijuana seedlings that a person may transfer to another person, clarifies that the limit of six plants applies to all plants and requires that the reasonable precautions that must be taken to keep marijuana plants from underage persons apply to storing and securing marijuana;
5. It amends the provision prohibiting marijuana sales from vending machines by allowing sales from vending machines inside a retail marijuana store;
6. It amends the provisions on applications for marijuana establishments and marijuana transportation providers to comply with the requirement that the location of the business be a municipality, unorganized place or plantation that has voted to allow such businesses and provides the option of that jurisdiction to limit the number of businesses;
7. It amends the provisions on operation of a retail marijuana store, a marijuana product manufacturing facility and a commercial marijuana cultivation facility;
8. It makes technical editing and typographic corrections in the bill;

Joint Standing Committee on Criminal Justice and Public Safety

THIBODEAU		

This bill is a concept draft pursuant to Joint Rule 208.

LD 1401 An Act To Allow for and Regulate the Adult Use of Cannabis

**Accepted Majority
(ONTP) Report**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DION GERZOFKY	ONTP OTP-AM	

This bill reforms state marijuana laws by establishing an excise tax on marijuana, allowing the personal use and cultivation of cannabis and allowing, regulating and licensing certain commercial cannabis-related activities, while providing provisions to protect persons under 21 years of age, employers and schools.

Part A of the bill establishes a 10% sales tax on cannabis, which is in addition to the current sales and use tax. Revenue from the sales tax on cannabis is distributed on a monthly basis as follows:

- 1. Ten percent each to regulate cannabis establishments; to counties and municipalities, based on the ratio of sales of cannabis products in the municipality or county to the sales of cannabis products in the State; to the Fund for a Healthy Maine for the elderly low-cost drug program; to the Department of Education for school construction; to conduct research on cannabis; to the Department of Health and Human Services, Maine Center for Disease Control and Prevention for a public awareness campaign to reduce the use of cannabis by persons under 21 years of age and the use of alcohol and tobacco; and to the Department of Health and Human Services to obtain federal funding for MaineCare; and
- 2. The balance to the General Fund.

Part A directs the Department of Administrative and Financial Services, Bureau of Revenue Services to report annually, beginning January 30, 2017, the amount of tax revenue generated and the amount distributed to each program to the joint standing committees of the Legislature having jurisdiction over appropriations and financial affairs and taxation matters. The bill directs the Bureau of Revenue Services to review methods for ensuring that all

Joint Standing Committee on Criminal Justice and Public Safety

cannabis that is sold in the State is assessed and to report its findings and recommendations to the joint standing committee of the Legislature having jurisdiction over taxation matters by February 15, 2017.

Part B removes the civil violation for possession of cannabis by adults 21 years of age and older and specifies a civil fine of at least \$100 for possession of cannabis by a person under 21 years of age; a judge may, as an alternative or in addition to the fine, assign the person to perform work for the State, a subdivision of the State, a public entity or a charity.

Part C of the bill establishes the Cannabis Regulation Act, which allows a person 21 years of age or older to possess, purchase and use cannabis within certain limits and to cultivate a limited amount of cannabis for personal use. It allows a person to possess cannabis paraphernalia and up to one ounce of cannabis. It allows a person to cultivate up to three cannabis plants and up to six seedlings, and to purchase up to one ounce of cannabis, cannabis paraphernalia and cannabis seedlings from someone who is licensed to sell these products. The bill imposes restrictions on cannabis use similar to those that apply to tobacco use regarding smoking in public places. It requires those cultivating cannabis to secure the cannabis from access by unauthorized persons and by minors.

Part C includes specific requirements for the operations of commercial cannabis-related activities regarding the location of operations, security measures, labeling and record keeping. It allows localities to limit, regulate or ban the issuance of cannabis-related licenses. It further limits the number of retail cannabis stores based on the size of the municipality. Enforcement and administration of the Cannabis Regulation Act is the responsibility of the Department of Administrative and Financial Services, Bureau of Alcoholic Beverages and Lottery Operations, which is renamed the Bureau of Alcoholic Beverages, Cannabis and Lottery Operations. The bureau is required to adopt rules for the licensing and regulation of cannabis establishments; upon the adoption of such rules, each dispensary registered under the Maine Medical Use of Marijuana Act is granted a provisional license to operate a commercial cannabis cultivation facility, a cannabis product manufacturing facility and a retail cannabis store. Included in the rules must be a provision giving preference for licensing to a registered dispensary under the Maine Medical Use of Marijuana Act. A dispensary organized as a nonprofit corporation that reorganizes under the Maine Revised Statutes, Title 13-C is deemed to be the same dispensary for licensing purposes. Part C creates the Cannabis Regulation and Licensing Fund to provide a funding mechanism for regulation of commercial cannabis-related activities and the Cannabis Research Fund to fund research on cannabis; both funds are funded by revenue from the sales tax on cannabis.

Part C also amends the Maine Medical Use of Marijuana Act to remove the requirement that dispensaries be nonprofit corporations, remove the restriction on how much marijuana may be transferred by a primary caregiver for compensation, require a primary caregiver's cultivation facility to be open to reasonable inspection by the Department of Health and Human Services and cap the number of primary caregivers registered with the department at the number registered with the department on December 31, 2015.

Finally, Part C requires the Department of Agriculture, Conservation and Forestry to adopt rules regulating the use of pesticides in cannabis cultivation operations.

Part D renames the Bureau of Alcoholic Beverages and Lottery Operations within the Department of Administrative and Financial Services, the Bureau of Alcoholic Beverages, Cannabis and Lottery Operations.

Part E updates the exceptions to the laws restricting possession of marijuana in the Maine Criminal Code to reflect the use permitted by this legislation. Part E also provides that the odor of cannabis does not create probable cause of criminal activity.

Part F removes provisions in the law that make licensing of industrial hemp farming contingent upon federal action and that require licensees to document the type of hemp planted and to provide notification of each sale. This Part also updates various provisions of Title 7 and Title 22 that are affected by the enactment of the Cannabis Regulation Act and amends Title 26 to prohibit the employment of a person under 21 years of age in an

Joint Standing Committee on Criminal Justice and Public Safety

establishment licensed for commercial cannabis-related activities.

Part G provides that a person cannot be found to lack good moral character for personal, medical or commercial marijuana activities allowed by this legislation when that person is applying to obtain a permit to carry a concealed handgun.

Part H creates the Prevention and Control of Marijuana Use by Youth Program and its administering body, the Prevention and Control of Marijuana Use by Youth Advisory Council. The purpose of the program is to prevent persons under 21 years of age from using marijuana products. Part H also creates the Cannabis Research Fund, which is established to conduct research on cannabis.

Committee Amendment "A" (H-477)

This amendment, which is the minority report of the committee, adds an appropriations and allocations section.

for a Victim at Sentencing**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HERBIG KATZ	OTP-AM ONTP	H-398

Current law provides that a victim may participate in the process of a defendant's sentencing and requires the court to consider any oral or written statement made by the victim to the court. This bill provides that the victim may have an attorney represent the victim and submit a written statement or speak on the victim's behalf during the sentencing process.

Committee Amendment "A" (H-398)

This amendment is the majority report of the committee. The amendment changes the title and removes from the bill the provision that provides that an attorney may represent the victim at a sentencing hearing. It retains and clarifies the provision of the bill that allows an attorney to submit a written statement or speak on the victim's behalf.

Enacted Law Summary

Public Law 2015, chapter 282 allows an attorney for a victim of a crime to submit a written statement or speak on the victim's behalf in the court sentencing procedure.

and Correctional Services**

**PUBLIC 291
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
ROSEN	OTP-AM	S-251

This bill authorizes law enforcement officers and juvenile community corrections officers to refer juveniles who commit minor offenses to diversion or restorative justice programs. In order to facilitate the effectiveness of these programs, the protection provided against admissibility in evidence for admissions made at other early stages of the juvenile justice process is provided for admissions made in connection with these diversion and restorative justice programs. An outdated reference to "community resolution teams" is also removed.

The bill adds to the protections of the victim notification statute by requiring victim notification of funeral and deathbed visits by prisoners, by adding to the definition of "victim" a person who has obtained from a court a protection from abuse order or received the court's approval for a protection from abuse agreement and by allowing victims to request notification directly from the Department of Corrections.

The bill allows a court to revoke the probation of an offender who has contact with a victim during incarceration if contact has been prohibited as a condition of probation.

The bill clarifies that the exemption from the payment of a health care copayment for certain mentally ill or developmentally disabled prisoners applies only to health care addressing the mental illness or developmental disability and not to unrelated health care. These provisions apply to both jail and Department of Corrections prisoners. The bill also removes a provision that is outdated as a result of recently enacted statutes prohibiting anyone under 18 years of age from being incarcerated in an adult facility.

The bill removes language providing that certain positions in the Department of Corrections serve at the pleasure of the commissioner. The positions include facility heads and regional community corrections administrators.

The bill expands the arrest powers of probation officers so that, in addition to the other categories of offenders they may arrest, they are also authorized to arrest escapees from facilities of the Department of Corrections.

The bill repeals an outdated uniform interstate compact for juveniles.

The bill amends the provision of law requiring a court sentencing a juvenile bound over and convicted as an adult to imprisonment to commit the juvenile to a Department of Corrections juvenile facility until the person attains 18 years of age, with any imprisonment time remaining after the person attains 18 years of age to be served in an adult facility. Currently, this provision is limited to certain serious crimes. The bill eliminates the limitation, thus preventing a person who has not attained 18 years of age who commits a less serious crime from being incarcerated in an adult facility.

Committee Amendment "A" (S-251)

This amendment removes from the bill provisions related to juvenile community corrections officer duties, statements made during a diversion or restorative justice program, preliminary procedures in juvenile corrections, victim notification, revocation of probation and repeal of the Uniform Interstate Compact on Juveniles. The amendment adds an emergency preamble and emergency clause to the bill.

PIERCE T	OTP-AM ONTP	H-450

This bill is a concept draft pursuant to Joint Rule 208. The bill proposes to amend the current law to promote the establishment and expansion of summer school programs for elementary and secondary school students. The bill proposes that:

2. The Department of Education provide elementary and secondary schools with examples of effective models of summer school programs that improve student performance, including model programs that involve school networking and partnerships with community-based organizations such as the Maine Alliance of Boys & Girls Clubs that provide summer activities to align and leverage existing resources, improve program quality and develop shared outcomes for student success; and
3. The current provisions in the Maine Revised Statutes, Title 20-A related to funding summer school programs be amended to provide additional funds for the establishment and expansion of summer school programs for elementary and secondary school students. The amendments to the current law may include, but are not limited to:
 - A. Providing an adjustment of the state share of the total allocation to qualifying school administrative units for the costs of establishing or expanding summer school programs for elementary and secondary school students; or

2. It requires the commissioner to administer the fund within the Department of Education and to establish standards and approval for the allocation and use of fund money for summer success programs offered at elementary or secondary schools in the State. It also allows the commissioner to include the following in the standards:
 - A. Guidelines similar to the federal 21st Century Community Learning Centers program to close the achievement gap between economically disadvantaged students and their peers;

Committee Amendment "A" (H-207)

This amendment is the majority report of the Joint Standing Committee on Education and Cultural Affairs. The amendment removes the provision in the bill that prohibits a school board from prohibiting possession of medical marijuana and instead provides that a parent, guardian or other person designated as a primary caregiver for a minor child certified for the medical use of marijuana may possess and administer marijuana in a nonsmokeable form to that child in a school bus or on the grounds of a preschool or primary or secondary school.

Senate Amendment "A" To Committee Amendment "A" (S-148)

This amendment amends Committee Amendment "A" to strike and replace the provision in the bill that provides that a child upon a recommendation from the child's health care provider may not be denied eligibility to attend school solely because the child requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

This amendment provides that a child who holds a written certification for the use of medical marijuana from a medical provider under the Maine Medical Use of Marijuana Act may not be denied eligibility to attend school solely because the child requires medical marijuana in a nonsmokeable form as a reasonable accommodation necessary for the child to attend school.

This amendment retains the provisions in Committee Amendment "A" concerning the possession and administering of marijuana in a nonsmokeable form by a parent, guardian or other primary caregiver.

This bill also requires that the terms and conditions of invitations for bid proposals by the University of Maine System for purchases of \$10,000 or more be posted on a publicly accessible website.

DAUGHTRY	OTP-AM ONTP	H-262

This bill is a concept draft pursuant to Joint Rule 208. The bill proposes to implement a comprehensive strategy to increase the affordability of tuition at state public universities and colleges for Maine residents, thereby increasing the graduation rate from those state public institutions of higher education, and to attract to and keep in Maine young professionals. The comprehensive strategy may include, but is not limited to:

1. Establishing a textbook scholarship program, in coordination with the public institutions of higher education to provide scholarships for the purchase of textbooks at those institutions. The scholarships would be available to graduates of Maine high schools who have a grade point average of 3.0 or better on a 4.0 scale;
2. Establishing scholarships or providing incentives for degree completion with agreements to remain in the State after graduation for specified periods. Under this program, a full scholarship for the fourth and final year of school at a Maine public institution of higher education would be provided to students who agree to work in the State for a certain period of time following graduation;
3. Requiring the Department of Education and the Finance Authority of Maine cooperatively to issue low-interest student loans to students attending a public or private institution of higher education in this State who meet certain criteria, such as financial need, academic merit, graduating within four years or agreeing to work in public service for a certain period after graduation;
4. Requiring the Finance Authority of Maine to establish additional tax credits, state grants and other forms of financial aid for higher education for residents of this State who are graduates from a Maine public institution of higher education and an education loan repayment program for all graduates of an institution of higher education who are residents of this State;
5. Establishing a loan repayment program for graduates employed in certain high-demand fields in this State;
6. Establishing goals for college graduation attainment for the next 25 years;

Joint Standing Committee on Education and Cultural Affairs

- 7. Exploring the development of an entity, such as a board of regents, to oversee higher education in this State in order to best serve the higher education needs of the residents and businesses of this State; and
- 8. Establishing a pilot project, based on Oregon's "Pay Forward, Pay Back" model, under which a student enrolled in a public institution of higher education, in lieu of paying tuition or fees, contracts to pay the State a certain percentage of the student's annual income following graduation for a specified number of years. The pilot project would eventually replace the current system of charging a resident of the State tuition and fees for enrollment at a state public institution of higher education. The pilot project would:
 - A. Allow a student who is a resident of the State and who qualifies for admission to an institution to enroll in the institution without paying tuition or fees;
 - B. Provide that, in lieu of paying tuition or fees, the student must sign a binding contract to pay to the State or the institution for a specified number of years a certain percentage of the student's annual adjusted gross income upon graduation from the institution;
 - C. Specify the number of years and the percentage of annual adjusted gross income for contracts at each participating institution and base the specifications on research to date; and
 - D. Establish a funding source for the first 15 to 20 years of the pilot project and a revolving fund into which payments made under the pilot project are deposited to provide long-term funding.

A pilot project may include variations by specific institution depending on the total cost of education at the institution, the portion of the cost that is paid by the State, the number of years of student repayment specified in the contract and the percentage of annual adjusted gross income specified in the contract.

Current law defines a municipality's fiscal capacity for the purpose of calculating the local share and state share of the cost of public kindergarten to grade 12 education as the average state valuation for the municipality over a three-year period prior to the most recently certified state valuation. In order to avoid overstating the fiscal capacity of a municipality that has experienced a significant loss in value of 2 percent or more attributable to a single taxpayer, this bill resets the three-year period to average state valuations for those municipalities going forward, beginning with the first year the municipality's certified state valuation reflects that significant loss in value.

LD 1253 An Act To Improve the Evaluation of Elementary and Secondary Schools CARRIED OVER

BATES	OTP-AM	H-467

This bill is a concept draft pursuant to Joint Rule 208. The bill would require that, beginning with the 2016-2017 school year and only after the adoption of major substantive rules by the Department of Education, the Commissioner of Education implement a school assessment system to measure school performance and student proficiency. The system implemented must include multiple measures of student achievement and may include, but is not limited to, the use of:

1. Summative assessments aligned with the grade level expectations of the parameters for essential instruction and graduation requirements established under the Maine Revised Statutes, Title 20-A, section 6209, subsection 2 and Department of Education Rule Chapter 132: Learning Results: Parameters for Essential Instruction;

Joint Standing Committee on Education and Cultural Affairs

2. Formative assessments that measure student growth over time; and
3. Information of the state assessment program under Title 20-A, section 6204 on student achievement reported by the department in compliance with applicable federal statutes and regulations regarding student assessment as required by the federal No Child Left Behind Act of 2001, 20 United States Code, Chapter 70.

The bill would require the commissioner to annually report the statewide and school level results of the school assessment system with regard to the performance of schools and the proficiency of students in each of the State's elementary and secondary schools and to provide each participating school with a profile of school performance and student proficiency based upon data from the school assessment system. The reporting mechanisms and the categories reported must be uniform for each school compared at the elementary level or the secondary level.

The bill would also require the Commissioner of Education to convene a task force to develop a system to evaluate or rate the performance of public schools in the State and to incorporate the recommendations of the task force in the adoption of major substantive rules under this bill. The task force must include, but is not limited to, representatives of the following entities and stakeholder groups:

1. The Department of Education;
2. The State Board of Education;
3. Teachers;
4. Principals;
5. Parents;
6. The Education Research Institute under Title 20-A, section 10; and
7. Students.

The school assessment system developed by the task force must include, but is not limited to, the following elements:

1. Accurate measures of student progress over at least three years;
2. Rates of postsecondary school attendance and enlistment in the United States Armed Forces over at least three years;
3. A peer group comparison that takes into account, but is not limited to, use of special education services, the number of students eligible for free or reduced-price meals, local and county unemployment data and median household income;
4. School attendance rates;
5. Graduation rates;
6. Procedures to address specific challenges unique to a municipality, county or school administrative unit; and
7. Interviews with parents of students, members of governing boards of school administrative units, teachers and other education leaders about the overall school environment.

Joint Standing Committee on Education and Cultural Affairs

The bill would require the task force to review the requirements of Title 20-A, chapter 222 and the school assessment systems that have been implemented in other states and jurisdictions and develop a school assessment system that will best serve the academic and developmental needs of students in this State. The school assessment system may not use a bell curve, and a school may not be penalized because of the failure of students to take certain standardized tests. The task force would be required to provide opportunities for the public and interested parties to provide input regarding the development of the school assessment system and give notice to the public and interested parties of the task force's meetings during which the public may provide testimony or feedback on the proposed models under consideration by the task force.

Committee Amendment "A" (H-467)

This amendment replaces the concept draft with a bill that does the following:

1. It provides that, beginning with the 2017-2018 school year and only after the adoption of major substantive rules by the Department of Education, for public schools, public charter schools and private schools approved for tuition purposes that enroll at least 60 percent publicly funded students, the Commissioner of Education shall implement a school assessment system to measure school performance and student proficiency in achieving the knowledge and skills described in the parameters for essential instruction and graduation requirements established under the Maine Revised Statutes, Title 20-A, section 6209, subsection 2 and the Department of Education's rule Chapter 132: Learning Results: Parameters for Essential Instruction;
2. It provides that, notwithstanding any other provisions of Title 20-A, chapter 222, the commissioner may not provide a report of the statewide or school-level results of the school assessment system until the final adoption of department rules adopted in accordance with Title 20-A, section 6214, subsection 3. It provides that the rules must be consistent with the recommendations reported by the task force established in this amendment. It also provides that this law may not be construed to prevent or inhibit the department from providing reports to comply with the federal statutes and regulations pertaining to student assessment as required by the federal No Child Left Behind Act of 2001;
3. It directs the commissioner to convene a task force to review school assessment systems that have been implemented in other states and to develop a system to evaluate and rate the performance of schools in this State;
4. It provides that the commissioner must report the task force's findings, recommendations and any necessary legislation with respect to the implementation of a school assessment system to the Joint Standing Committee on Education and Cultural Affairs no later than January 15, 2016 and authorizes the joint standing committee to report out a bill to the Second Regular Session of the 127th Legislature related to the recommendations included in this report; and
5. It provides that the department must file provisionally adopted major substantive rules by January 6, 2017 to implement the school assessment system and that the rules must specify the methods to be used as part of the annual assessment of the performance of elementary and secondary schools and the proficiency of elementary and secondary school students beginning with the 2017-2018 school year.

This amendment also adds an appropriations and allocations section.

This bill was carried over on the Special Appropriations Table to any special or regular session of the 127th Legislature by joint order, S.P. 555.

Requires the Department of Education, within 90 days after the bill's effective date, to replace the content standards in English language arts, mathematics, science and social studies with new standards that are consistent with the standards adopted by Massachusetts prior to that state's adoption of the common core state standards, so that Maine's standards are, as much as possible, identical to those adopted by Massachusetts, except when a Maine context requires otherwise;

2. For the 2015-2016 school year, requires the Department of Education to furnish and school administrative units and schools to administer the assessments for elementary and secondary schools that were administered during the 2013-2014 school year, including the New England Common Assessment Program for grades three to eight and the Maine High School Assessment testing program for grade 11 that includes the SATs in reading, mathematics and writing, as well as the Maine High School Assessment science test that was developed in collaboration with Measured Progress;
3. - 6. Requires that a school administrative unit excuse a student from standardized assessments at the written request of the student's parent or guardian and establishes requirements for school administrative units and the Department of Education related to excusing a student.

With regard to the comparison of standards and assessments, the bill:

- 1. Requires the Department of Education to compare and publish on its website a comparison of the new content standards in English language arts, mathematics, science and social studies that will be effective in the 2019-2020 school year with Maine's state standards and the parameters for essential instruction and graduation requirements and to submit a report to the Legislature and Governor outlining the results of the comparison of the standards; and
- 2. Requires the subcommittees in the content areas of English language arts, mathematics, science and social studies to compare the content standards in English language arts, mathematics, science and social studies with the content standards that were previously adopted by the Department of Education pursuant to Public Law 2009, chapter 313, section 19 and Public Law 2009, chapter 647, section 1.

With regard to the release of personally identifiable data, the bill:

LD 1420 An Act Regarding Participation by Private School Students in Extracurricular and Interscholastic Activities at Public Schools

Accepted Majority (ONTP) Report

MIRAMANT KRUGER	ONTP OTP	

Current law allows a student at a private school that is recognized by the Department of Education as providing an equivalent instruction alternative to try out for extracurricular or interscholastic activities at a public school if the private school the student attends does not offer the same extracurricular or interscholastic activities, the principal of the public school approves and the student agrees to abide by other conditions.

This bill extends the same privilege to a student enrolled in an equivalent instruction program at a private school that is approved for attendance purposes by the Department of Education. Private schools that are approved by the department must meet standards for hygiene, health and safety and either be accredited by the New England Association of Schools and Colleges or meet applicable requirements of Maine law pertaining to private schools and the department's requirements for approval for attendance purposes.

This bill gives the Commissioner of Education the authority to designate a school administrative unit to enroll a student when the student's school administrative unit neither maintains a school nor contracts with another school administrative unit and no school administrative unit enrolls the student voluntarily. For a student receiving special education services, the bill requires a resident school administrative unit to pay to the receiving school administrative unit tuition, special education tuition, other costs directly related to the student's special education and costs associated with due process proceedings for providing a free, appropriate public education.

This bill makes the following changes to the laws relating to public charter schools.

1. The bill allows charter schools authorized by a local school board or a collaborative among local school boards to give enrollment preference to residents of the school administrative unit or units whose school board or school boards authorized the charter school.
2. The bill extends the submission deadline for a charter school authorizer's annual report to the Commissioner of Education from 60 to 90 days after the end of the school fiscal year and adds language to address the disposition of graduation records and records of other students not transitioning to another Maine public school if a charter school closes.
3. The bill adds language to reflect that charter schools are subject to educator effectiveness requirements.
4. The bill provides that the compulsory attendance laws apply to virtual charter schools.
5. The bill allows the Commissioner of Education to designate the school administrative unit that is responsible for oversight of the individualized education program of a child with a disability who is a state ward and is placed in an out-of-state residential treatment center by the Department of Health and Human Services.
6. For a charter school in a school administrative unit with an enrollment of 500 or fewer students, current law caps the number of students from the school administrative unit that the charter school may enroll during its first three

Joint Standing Committee on Education and Cultural Affairs

years of operation at five percent of the school administrative unit's noncharter public school students per grade level. The bill provides that if five percent of the school administrative unit's noncharter public school students per grade level is less than one, the charter school may enroll one student from the school administrative unit per grade level in each of the charter school's first three years of operation.

This bill was not referred to a committee.

2. Achieve economic stabilization of the three existing waste-to-energy facilities in the State by January 1, 2016, with options for funding that stabilization;
3. Develop a plan to minimize the need for future expansion of landfill capacity in Maine, including state-owned landfills;
4. Identify additional strategies to increase the beneficial use of waste materials, particularly where there are potential economic benefits to be derived from these materials; and
5. Develop other components of an overall comprehensive implementation plan necessary and appropriate to better

This bill, which is a concept draft pursuant to Joint Rule 208, proposes to amend the site location of development laws, as set forth in the Maine Revised Statutes, Title 38, chapter 3, subchapter 1, article 6, to provide that any surface water generated by an expansion project and any new or existing system through which that water flows must comply with the surface water regulatory standards in effect at the time the expansion application is filed if:

1. A development is being expanded and the existing, original development was permitted by a municipality, did not require a permit under the site location of development laws and is being expanded in a manner that triggers the need for a permit; or
2. A development is being expanded and an expansion of the development was previously permitted under the site location of development laws.

If the criteria are not met and as long as a development complied with the applicable standards at the time the existing, original development was created, the surface water generated by the existing, original development and the systems through which that water flows do not need to comply with the regulatory standards in effect at the time the expansion application is filed.

Committee Amendment "A" (H-46)

LD 192 An Act To Clarify the Law Governing the Collection of Unpaid Sanitary District Charges

PUBLIC 174

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SAVIELLO	OTP-AM	S-121

This bill makes three changes to the section of the Maine Sanitary District Enabling Act governing the administration of liens on real estate to enforce the collection of unpaid sanitary district charges. Committee Amendment "A" (S-121)

This amendment adds a mandate preamble to the bill. It clarifies the date when sewer and municipal water system liens arise and are initially perfected, which is the date the service is provided. It also clarifies and expands upon a requirement in the bill that the treasurer of a sanitary district must mail a copy of a lien certificate to a record owner of real estate that did not receive a demand notice for the payment of an unpaid rate, toll, rent or other charge of the sanitary district.

LD 660 An Act To Protect Homeowners from Damage in the Event of a Failure of Public Water Systems

Veto Sustained

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DECHANT	OTP-AM	H-189

This bill allows a consumer-owned water utility to establish a homeowner protection fund to reimburse a homeowner in the event of a water system failure that causes damage to the homeowner's property. The Public Utilities Commission is required to adopt rules governing the creation and use of such a fund.

Committee Amendment "A" (H-189)

This amendment replaces the bill, which establishes a homeowner protection fund, and enables contingency allowance funds to be used to reimburse a consumer in the event of a water system failure that causes damage to the consumer's property. This amendment clarifies that the use of contingency funds by a consumer-owned water utility does not waive a utility's immunities or limitations on damages that exist under the Maine Tort Claims Act, any other statute or the common law. This amendment also increases the annual contingency allowance from ten percent to 12 percent for a utility with annual revenues up to \$85,000, and from five percent to seven percent for a utility with total annual revenues in excess of \$85,000.

LD 743 An Act To Protect the Environment and Assist Municipalities with the Recycling, Reuse and Processing of Solid Waste

ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
ROSEN	ONTP	

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to enact measures to support the State's solid waste management hierarchy and provide for the effective and efficient management of solid waste throughout the State by encouraging the conversion of municipal solid waste to electrical energy as a means to minimize the amount of municipal solid waste that is disposed of and stored in landfills.

The bill encourages materials management and conversion of municipal solid waste into electrical energy through the establishment of a net electrical billing process that will have the effect of reducing energy costs to

Joint Standing Committee on Energy, Utilities and Technology

municipalities who are the primary disposers of the waste. The net electrical billing process will also serve to encourage the reduction, recycling and effective management of municipal solid waste; preserve many existing well-paying jobs; enhance the diversification of the State's energy resource mix; stabilize the State's energy supply infrastructure; and result in a net environmental benefit to the State and its citizens.

1. The bill would establish a waste management net electrical billing program in accordance with the following provisions.

A. An eligible participating waste-to-energy facility in the State would be authorized to develop and offer a contract for the conversion of municipal solid waste to electricity that provides net electrical billing credits based upon the number of metered kilowatt-hours produced by the incineration of the municipal solid waste that is originated with each eligible governmental entity customer that enters into a contract. No contract would be authorized unless it is certified by the Department of Environmental Protection.

B. There would be two types of metering in the program:

(1) Generation meters registering the flow of electricity produced through the incineration of municipal solid waste at each eligible participating waste-to-energy facility; and

(2) Consumption meters registering the consumption of electricity by the eligible governmental entity customer.

C. Each eligible participating waste-to-energy facility would annually calculate the annual electrical crediting ratio by taking the total metered electrical power generated and dividing it by the total number of tons of municipal solid waste processed during the reporting year. The annual electrical crediting calculation would be certified and provided by each eligible participating waste-to-energy facility to the Department of Environmental Protection and the Public Utilities Commission on or before a date determined by the Department of Environmental Protection.

D. Based on net electrical crediting calculations, the Department of Environmental Protection, in cooperation with the Public Utilities Commission, would set the annual ratio at which net electrical billing credits will be determined by each eligible participating waste-to-energy facility during the next program administrative year.

E. Each eligible participating waste-to-energy facility would provide monthly data on the number of electrical billing credits each participating eligible governmental entity customer has earned during the preceding 30-day period to the electrical utility that provides service to each participating eligible governmental entity customer. Copies of the report would be provided monthly to the participating eligible governmental entity customer. Contracts supporting the net electrical billing process would be developed between eligible participating waste-to-energy facilities and utilities, as well as the utilities and the eligible governmental entity customers participating in the program. A contract would not be used unless it is certified by the Department of Environmental Protection and the Public Utilities Commission.

F. Each electrical utility would apply the reported net electrical billing credits for each participating eligible governmental entity customer on its next electrical service billing. Any credits not used on a given monthly electrical billing for a participating eligible governmental entity customer would be carried over and applied to a future monthly electrical service bill for that customer.

G. The program would be administered by the Department of Environmental Protection in consultation with the Public Utilities Commission.

H. The Board of Environmental Protection would adopt routine technical rules necessary for the operation and administration of the program.

Joint Standing Committee on Energy, Utilities and Technology

2. The bill would establish definitions necessary to implement the waste management net electrical billing program, including:

- A. Defining "eligible governmental entity customer" as a governmental entity organized and existing pursuant to the laws of the State that provides an annual written certification that it operates an established program of solid waste reduction, recycling and composting relative to the solid waste it collects before it sends that solid waste to an eligible participating waste-to-energy facility for processing and conversion into electricity;
- B. Defining "eligible participating waste-to-energy facility" as a facility licensed pursuant to the provisions of the Maine Revised Statutes, Title 38 that converts municipal solid waste to electricity through an incineration process that is licensed by the Department of Environmental Protection, reduces the volume of the municipal solid waste it processes by at least 80 percent and the weight by at least 65 percent and is not a party to a power purchase agreement;
- C. Defining "municipal solid waste" as solid waste that has been collected by a participating eligible governmental entity customer other than waste that the customer has diverted through reduction, recycling and composting before it is sent to an eligible participating waste-to-energy facility for processing and conversion into electricity; and
- D. Defining "net electrical billing credits" as the monetary credits that are applied by an electrical utility to the monthly bill of an eligible governmental entity customer that has earned those credits by sending municipal solid waste that it has collected to an eligible participating waste-to-energy facility for conversion into electricity.

Amendments Adopted

This bill provides a process to allow a municipality to choose a single transmission and distribution utility via a referendum when that municipality is served by more than one utility. The decision to hold a referendum must be made by a majority vote of the municipal officials. A referendum to choose a single utility must occur during a gubernatorial or presidential election in November and must be called, advertised and conducted according to the law relating to municipal elections.

The bill also requires that the Public Utilities Commission approve a petition by the municipal officials to have only one utility furnishing service in the municipality. The Public Utilities Commission must approve a petition if it finds the chosen utility is willing to furnish service to the entire municipality, the chosen utility has the financial ability to meet its obligations under the Maine Revised Statutes, Title 35-A and the chosen utility is willing and able to pay a fair and reasonable price, as determined by the commission, for the assets of the second utility needed to furnish service to the entire municipality. Upon approval, the Public Utilities Commission is directed to order the second utility to sell its assets used to serve the municipality to the chosen transmission and distribution utility. This bill also allows the Public Utilities Commission to adopt routine technical rules to implement these provisions.

This bill allows the Public Utilities Commission to contract for the storage and distribution of liquefied natural gas to provide a source of natural gas during peak winter months. This bill defines a "liquefied natural gas contract" and provides that, prior to entering into a contract, the Public Utilities Commission must ensure that a liquefied natural gas facility will be located in a rural, low-income community within the State, a study has been conducted by an independent third party showing the construction of the facility will result in a minimum of 200 direct and indirect jobs, exclusive of jobs directly linked to the actual construction of the facility and, if feasible, the facility will be constructed by a qualified construction firm based in the State.

This bill also requires that before the Public Utilities Commission executes or directs the execution of a liquefied natural gas contract, the Governor must approve in writing the contract.

This bill requires the Public Utilities Commission to consider additional requirements before approving a reorganization involving a telephone utility with gross annual state revenues greater than \$50,000,000. The bill also removes the requirement that the Public Utilities Commission rule upon a request for the reorganization of a large telephone utility within 180 days.

Committee Amendment "A" (H-285)

This amendment, which is the minority report, removes the requirement that economic development goals must be

advanced in order for the Public Utilities Commission to approve a reorganization involving a telephone utility with gross annual state revenues greater than \$50,000,000. This amendment also requires a broader finding by the commission that the reorganization does not result in changes that would adversely affect safety, reliability or quality of service, unlike in the bill, which requires a finding that the reorganization would not result in changes that would adversely affect safety, reliability or quality of service as it pertains to the location and the accessibility of the telephone utility's management and operations or to the proportion and number of the telephone utility's employees who reside in the State.

HARLOW	ONTP OTP-AM	

This bill requires cellular telephone manufacturers that include safety notifications in their owner's manuals to ensure that cellular telephone packaging includes those safety notifications or a label indicating where the safety notifications may be found in the owner's manual. It prohibits retailers from selling at retail in this State cellular telephones of manufacturers that include safety notifications in their owner's manuals but do not include on the product packaging the safety notifications or a label indicating where the safety notifications may be found. It requires manufacturers of cellular telephones to provide the safety notifications to retailers at no cost to the retailers. It also prohibits retailers from selling at retail in this State a cellular telephone that does not bear a label warning that the device emits radiofrequency electromagnetic fields. It also requires retailers to provide an information bulletin to the purchaser of a cellular telephone informing the purchaser of potential health risks associated with the use of cellular telephones. The bill provides that a violation of these provisions is a violation of the Maine Unfair Trade Practices Act.

Committee Amendment "A" (H-343)

This amendment is the minority report of the committee. This amendment requires disclosure labels for cellular telephones instead of warning labels. The amendment removes requirements for retailers from the bill regarding warning labels and information bulletins for cellular telephones and no longer prohibits a retailer from selling cellular telephones in the State that do not comply with the requirements of the bill. The amendment changes the information required on product packaging and creates a new disclosure requirement for those cellular telephone manufacturers that do not include safety notifications within their owner's manual.

DUNPHY L MASON	OTP-AM	H-369

This bill changes laws amended by Public Law 2013, chapter 369, also known as the Omnibus Energy Act. It provides that only consumers whose rates reflect an assessment that is charged to a gas utility and deposited in the natural gas conservation fund are eligible to receive funding from the fund. It exempts large volume commercial or industrial customers from paying an assessment to be deposited in the fund except through a voluntary arrangement. It provides that the Public Utilities Commission may not approve a long-term contract to supply installed capacity and associated renewable energy and renewable energy credits from one or more deep-water offshore wind energy pilot projects or tidal energy demonstration projects that assesses any amount from transmission voltage level customers and subtransmission voltage level customers.

Committee Amendment "A" (H-369)

This amendment replaces the bill with a resolve. The amendment establishes a moratorium on assessments for large volume consumers by gas utilities until 90 days after the adjournment of the Second Regular Session of the 127th Legislature. This amendment specifies that the Public Utilities Commission may not allow a natural gas utility to collect an assessment under the Maine Revised Statutes, Title 35-A, section 10111 through its rates from large volume consumers and may not make a final decision regarding the appropriateness of or size of such collections from large volume consumers. The amendment specifies that the Public Utilities Commission may not order or authorize a natural gas utility to exempt from collection of an assessment through its rates any consumers other than large volume consumers. The amendment specifies that, during this same time period, large volume consumers are not eligible to participate in any Efficiency Maine Trust natural gas conservation programs. This amendment also

Joint Standing Committee on Energy, Utilities and Technology

ensures that, during this period, notwithstanding Title 35-A, section 10111, any assessment by the commission must be in an amount necessary to capture all cost-effective energy efficiency that is achievable and reliable only for consumers who are eligible to receive funds from the natural gas conservation fund. This amendment defines a large volume consumer as a consumer using 1,000,000 centum cubic feet or more of natural gas per year.

This amendment also directs the Efficiency Maine Trust to meet with large volume consumers of gas utilities and other interested stakeholders to examine alternatives for promoting and securing cost-effective natural gas conservation and efficiency improvements for large volume consumers of gas utilities. This amendment directs the trust to report the results of these meetings, along with recommendations, to the Joint Standing Committee on Energy, Utilities and Technology by December 31, 2015. The committee is authorized to report out a bill to the Second Regular Session of the 127th Legislature.

The law specifies that the Public Utilities Commission may not order or authorize a natural gas utility to exempt from collection of an assessment through its rates any consumers other than large volume consumers. GIDEON MASON	OTP-AM	H-336

This bill amends the Advanced Technology Infrastructure Act. It amends the definitions of "communications service" and "communications service provider." It makes changes to the State's goals and policies in the Act. It amends the membership of the ConnectME Authority and amends the duties of the authority. It requires the authority to provide funds for broadband planning grants. It abolishes the ConnectME Advisory Council. It requires the authority to establish a triennial strategic plan for broadband service and to report to the Legislature on progress toward meeting the plan's goals and objectives.

Committee Amendment "A" (H-336)

This amendment does the following.

1. It removes the expansion of the contribution base of entities paying into the ConnectME Fund by removing changes to the definitions of "communications service" and "communications service provider" and by retaining a provision of current law, proposed to be eliminated in the bill, that allows certain wireless voice or data retail service providers to agree to be assessed as communications service providers.
2. It removes the requirement that broadband investments funded by the ConnectME Authority must benefit multiple communities and specifies that infrastructure investments may be capable of being used either by a single provider or by multiple providers.
3. It directs the ConnectME Authority to give preference when supporting broadband infrastructure to investments that provide the greatest relative improvement to existing broadband service in an unserved or underserved area.
4. It removes the eligibility of private or public organizations for community broadband planning grants and makes nonprofit local or regional community organizations that are providing local or regional economic development programs eligible for those grants.
5. It requires that plans funded through grants include one or more potential network designs, cost estimates, operating models and potential business models based on input from broadband providers and any other parties that submit a design solution in the course of plan development.
6. It requires the ConnectME Authority to ensure that grants are equitably distributed throughout the unserved and underserved areas of the State and that the grants encourage collaboration between multiple communities, but removes the requirement in the bill that the authority adopt rules for these purposes.
7. It specifies that matching funds for broadband planning grants may not consist of in-kind contributions from the municipality or a party with a financial interest in a broadband infrastructure project that would be constructed pursuant to a planning grant.
8. It extends the date for the ConnectME Authority's triennial plan submission from December 31, 2015 to February 15, 2016.

DUNPHY L WOODSOME	OTP-AM	H-406

This bill enacts construction requirements in statute for the construction of natural gas pipelines and establishes these requirements for gas utilities. The requirements govern clearance between underground facilities, crossings of other facilities and consultation with owners of proximate underground facilities. The bill also requires that the application process include providing evidence of notice to owners of facilities in the applicable public way.

Committee Amendment "A" (H-406)

This amendment retains sections of the bill that address the application process and objection process relating to the regulation of facilities in the public way. This amendment defines "underground location standards" and specifies that a local licensing authority may adopt underground location standards for utility facilities within its jurisdiction, except along state or state-aid highways within compact areas of urban compact municipalities, in which case the location standards adopted by the Department of Transportation serve as the minimum standard. The amendment specifies that if a local licensing authority has not adopted underground location standards for utility facilities within its jurisdiction, the standards adopted by the Department of Transportation govern. This amendment allows a local licensing authority that has not adopted standards to grant an exception to the standards adopted by the Department of Transportation if it finds that applying the standards would present an exceptional hardship or unreasonable cost under the circumstances and alternative standards will adequately ensure public safety; all affected parties, as determined by the local licensing authority, have agreed to alternative underground location standards that will adequately ensure public safety; a unique situation exists that requires an adjustment of the standards in a manner that ensures public safety; or the underground location standards exceed the limits of the available space within the right-of-way. Lastly, this amendment requires coordination among underground utility facility owners.

Enacted Law Summary

Public Law 2015, chapter 216 requires that the application process for a location permit include providing evidence of notice to owners of facilities in the applicable public way and allows an owner of a facility in the public way to object to an application for a location permit.

Committee Amendment "A" (S-185)

This amendment makes minor changes to language in the bill. This amendment makes consent of the Board of Selectmen of the Town of Southwest Harbor required prior to the exercise by the Southwest Harbor Water and Sewer District of the rights of eminent domain. This amendment provides that one of the trustees of the district must be the town manager of the Town of Southwest Harbor. This amendment also provides a process if the town manager position becomes vacant, which allows either the acting town manager to serve as a trustee or, in the absence of an acting town manager, the Board of Selectmen of the Town of Southwest Harbor to appoint a resident of the Town of Southwest Harbor as a trustee until the town manager position is filled. This amendment also requires the board of selectmen to determine the terms of the two appointed trustees, for the first board only. This amendment requires that notice be filed with the Office of the Secretary of State, instead of a certificate of dissolution, stating that all sewer and water assets of the municipality and all debt and liabilities of the water and sewer departments of the Town of Southwest Harbor have been transferred to the district. This amendment strikes the provision of the bill regarding the debt responsibility of the Town of Southwest Harbor.

This bill allows the Public Utilities Commission, Emergency Services Communication Bureau to provide selected public safety answering points with assistance in the voluntary adoption and implementation of standardized dispatch protocols, which includes dispatcher training and certification consistent with the protocols, necessary software and printed support materials and a continuous quality improvement program that measures compliance with the protocols through ongoing random case review of each police and fire dispatcher. Funding is provided by allowing up to five cents of each statewide E-9-1-1 surcharge collected to be used by the bureau.

The bill directs the bureau to adopt routine technical rules that contain criteria to determine how to allocate resources among public safety answering points if more public safety answering points seek to adopt and implement

Committee Amendment "A" (H-268)

This amendment changes the adoption and implementation of standardized dispatch protocols from voluntary to mandatory and limits those protocols to only fire calls, instead of police and fire as in the bill. This amendment phases in adoption and implementation over a three-year period and requires the Public Utilities Commission, Emergency Services Communication Bureau to adopt routine technical rules, with input from all public safety answering point managing entities, that identify the phase-in process and address program administration. Lastly, this amendment directs the Emergency Services Communication Bureau to submit a report to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters that includes cost estimates for the adoption and implementation of standardized dispatch protocols for answering police 9-1-1- calls, the time it would take to phase in these protocols based on available funding from the surcharge in the Maine Revised Statutes, Title 25, section 2927, subsections 1-E and 1-F, whether there should be a certification and licensing requirement for all standardized dispatch protocols and any other recommendations to ensure efficient and effective oversight of the standardized dispatch protocols. WARREN MCCORMICK	OTP-AM	H-399

This bill consolidates the Gardiner Water District, a quasi-municipal corporation organized and existing pursuant to Private and Special Law 1903, chapter 82, as amended, and the Hallowell Water District, a quasi-municipal corporation organized and existing pursuant to Private and Special Law 1921, chapter 75, as amended, to create the Central Maine Water District. The Central Maine Water District includes within its service territory the towns of Chelsea, Farmingdale, Pittston and Randolph and the cities of Hallowell and Gardiner. The district is a standard water district with all of the powers in the Maine Revised Statutes, Title 35-A, chapter 64 except as otherwise provided in this bill; the additional powers are those provided by the Legislature to each current district in their Private and Special Law charters and amendments.

Consolidation is contingent upon its approval by a referendum vote in each of the service territory municipalities in which 25 percent or more of the households in that municipality are customers of the Hallowell Water District or the Gardiner Water District, as applicable. The municipalities in which 25 percent or more of the households in that municipality are customers of the district currently are the cities of Hallowell and Gardiner and the towns of Farmingdale and Randolph.

Committee Amendment "A" (H-399)

This amendment removes from the bill provisions restricting the decision to form the Central Maine Water District and have it acquire the assets and liabilities of the Hallowell Water District and the Gardiner Water District to the legal voters of municipalities in which 25 percent or more of the households would be customers of the proposed district and replaces them with provisions extending the decision to so vote to all the legal voters of the proposed district. It also provides for two additional referendum questions: one for the voters in the City of Hallowell to vote whether to permit the Hallowell Water District to turn over its assets and liabilities to the Central Maine Water District and eventually dissolve as a corporate entity and one for the voters in the City of Gardiner to vote whether to permit the Gardiner Water District to turn over its assets and liabilities to the Central Maine Water District and eventually dissolve as a corporate entity. It requires that all three questions must be voted affirmatively for the Central Maine Water District to be formed. It also changes the charter to require a districtwide referendum to increase the district's debt limit.

This bill makes various changes to the community-based renewable energy pilot program. It makes the program permanent, broadens eligibility, adds provisions to ensure program participant viability, eliminates the program

incentive of renewable energy credit multipliers and requires the Public Utilities Commission to use a periodic competitive bidding process to choose projects that will receive long-term contracts.

Committee Amendment "A" (H-269)

This amendment is the majority report of the committee and strikes and replaces the bill. The amendment provides a definition for the term "net generating capacity." The amendment changes the limits on generating capacity from installed generating capacity to net generating capacity. The amendment reduces the reserved amount of megawatts from 10 to two for program participants that have a net generating capacity of less than 100 kilowatts or are located in the service territory of a consumer-owned transmission and distribution utility. The amendment removes the scheduled repeal of the law regulating community-based renewable energy and clarifies that the Public Utilities Commission may not issue an order after December 31, 2015 directing an investor-owned transmission and distribution utility to enter into any long-term contract or allow a consumer-owned transmission and distribution utility to enter into any long-term contract. The amendment specifies that all community-based renewable energy projects that have been selected for a long-term contract must become operational and commence generating electricity by December 31, 2018.

The amendment requires the commission to review all certified program participant projects that have not yet reached commercial operations to determine whether projects are reasonably likely to achieve commercial operations within three-year time period. This amendment provides that those projects determined not viable remain certified, but any contract that had been issued is to be revoked. The amendment allows the commission to conduct an expedited request for proposals to select community-based renewable energy projects to become program participants and enter into long-term contracts, if there is capacity remaining after the removal of nonviable projects. The amendment specifies that only those projects that provide the most benefit to ratepayers and have contract pricing below 10 cents per kilowatt hour within each contract year may be chosen. Lastly, this amendment prohibits a project under this process from choosing the renewable energy credit multiplier incentive. Those projects that are operational and have elected the renewable energy credit multiplier do not count towards the 50-megawatt cap on net generating capacity.

Enacted Law Summary

Public Law 2015, chapter 232 provides a definition for the term "net generating capacity." It changes the limits on generating capacity from installed generating capacity to net generating capacity. It reduces the reserved amount of megawatts from 10 to two for program participants that have a net generating capacity of less than 100 kilowatts or are located in the service territory of a consumer-owned transmission and distribution utility. It removes the scheduled repeal of the law regulating community-based renewable energy and clarifies that the Public Utilities Commission may not issue an order after December 31, 2015 directing an investor-owned transmission and distribution utility to enter into any long-term contract or allow a consumer-owned transmission and distribution utility to enter into any long-term contract. It specifies that all community-based renewable energy projects that have been selected for a long-term contract must become operational and commence generating electricity by December 31, 2018.

It requires the commission to review all certified program participant projects that have not yet reached commercial operations to determine whether projects are reasonably likely to achieve commercial operations within three-year time period. It provides that those projects determined not viable remain certified, but any contract that had been issued is to be revoked. It allows the Public Utilities Commission to conduct an expedited request for proposals to select community-based renewable energy projects to become program participants and enter into long-term contracts, if there is capacity remaining after the removal of nonviable projects. It specifies that only those projects that provide the most benefit to ratepayers and have contract pricing below 10 cents per kilowatt hour within each contract year may be chosen. Lastly, it prohibits a project under this process from choosing the renewable energy credit multiplier incentive and those projects that are operational and have elected the renewable energy credit multiplier do not count towards the 50-megawatt cap on net generating capacity.

LD 1313 An Act To Amend the Laws Regarding Nuclear Power Generating Facilities

PUBLIC 165

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
O'CONNOR BRAKEY	OTP-AM ONTP	H-182

This bill removes language stating that recent investments in nuclear power have caused severe financial strain on consumers. This bill also changes the requirement regarding a referendum for the siting of a nuclear power plant. Current law provides that prior to the construction of any nuclear power facility, a referendum must be held to vote on the acceptance or rejection of construction of such a facility. This bill limits when a referendum would be held to only those facilities with a capacity greater than 500 megawatts.

Committee Amendment "A" (H-182)

This amendment, which is the majority report, removes section 2 from the bill, which creates a threshold capacity of 500 megawatts for nuclear power plants for which a referendum is required as part of the siting process. The amendment maintains the current law, which requires a referendum for any nuclear power plant regardless of its generating capacity, but it leaves the provision in the bill that amends the findings section of the laws regarding nuclear power generating facilities.

Enacted Law Summary

Public Law 2015, chapter 165 amends the findings section of the laws regarding nuclear power generating facilities by striking language stating that recent investments in nuclear power have caused severe financial strain on consumers.

This bill allows municipalities and counties to create corporate entities with bonding authority to issue bonds for the purpose of funding construction or providing loans for the construction of broadband infrastructure to serve the municipality or county and ensure comprehensive broadband coverage within the municipality or county. The bill further clarifies that the expansion of broadband using optical fiber is an authorized expense under the state universal service fund administered by the Public Utilities Commission. Finally, this bill amends the State's goals for broadband policy by requiring that the ConnectME Authority define "broadband" to have at least the same speed as the current Federal Communications Commission standard and to create a standard providing that upload and download speeds are the same.

LD 1329 An Act To Maximize the Benefits of Renewable Energy in Maine

Died Between Houses

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
O'CONNOR WOODSOME	ONTP OTP-AM	

This bill makes a number of changes to the findings, scenic impact provisions and other provisions of law governing wind energy and renewable energy development. It:

1. Modifies legislative findings regarding wind energy to expand the scope of the findings to include other renewable energy resources and to identify various potential impacts of wind energy development;
2. Reduces state goals for new wind energy development;
3. Requires grid-scale wind energy developers to file decommissioning plans and to provide a performance bond to guarantee the funding for decommissioning;
4. Requires that a community benefits package supplied by an expedited wind energy development to host communities be memorialized as a written agreement and creates a lien on the real estate of the development to secure the receipt by the host community of those benefits; and
5. Modifies the authority of the Public Utilities Commission to require transmission and distribution utilities to enter into long-term contracts for renewable energy capacity resources, and it provides that the Public Utilities Commission may require contracts only for firm capacity or energy.

Committee Amendment "A" (H-347)

This amendment is the minority report of the committee. This amendment replaces the bill. Like the bill, this amendment modifies the legislative findings of the Maine Wind Energy Act to expand the scope to include other renewable energy sources, not just wind. Like the bill, this amendment provides in the legislative findings of the Maine Wind Energy Act that conversion or replacement energy fuel sources for powering motor vehicles and for heating well-insulated residential and commercial buildings may enhance energy independence, reduce energy costs and reduce greenhouse gas emissions. This amendment removes the provision of the legislative findings of the

Joint Standing Committee on Energy, Utilities and Technology

Maine Wind Energy Act that addresses the need for modification of regulatory process for siting wind energy developments.

This amendment, like the bill, requires grid-scale wind energy developers to file decommissioning plans and to provide a performance bond to guarantee the funding for decommissioning. This amendment requires the Department of Environmental Protection to adopt routine technical rules related to the decommissioning of grid-scale wind energy development. The amendment also adds an appropriations and allocations section.

If, following the new request for proposals, a bid is accepted by the Commission for less than 10 cents per kilowatt hour, the suspension of the renewable portfolio standards remains in effect for the duration of that standard offer period.

LD 1363 An Act To Secure the Maine Electrical Grid from Long-term Blackouts Died Between Houses

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MIRAMANT BEAVERS	ONTP OTP-AM OTP-AM	

This bill gives the Public Utilities Commission the authority to require transmission and distribution utilities to take necessary actions to ensure that their systems are protected from or able to negate effects of geomagnetic disturbances and electromagnetic pulses. This bill provides that any costs incurred by a transmission and distribution utility as a result of a directive by the commission are just and reasonable for rate-making purposes; however, the costs of a failure of a transmission and distribution system resulting from geomagnetic disturbances or electromagnetic pulses are the responsibility of the transmission and distribution utility and may not be borne by ratepayers.

The bill also directs the Public Utilities Commission, by July 1, 2016, to direct transmission and distribution utilities to undertake mitigation measures, including but not limited to the installation of additional geomagnetically induced current monitoring sites, neutral current blocking devices and supervisory control and data acquisition system protectors and the holding of sufficient spare transformers on site to more quickly replace damaged transformers. Identified measures were included in the Public Utilities Commission report dated January 20, 2014, entitled Report to the Legislature Pursuant to Resolves 2013, Chapter 45, Regarding Geomagnetic Disturbances (GMD) and Electromagnetic Pulse (EMP).

Committee Amendment "A" (S-215)

This amendment is a minority report of the committee. It removes the directive to the Public Utilities Commission to order transmission and distribution utilities to undertake actions to ensure their systems are protected from or able to negate effects of electromagnetic pulses and limits the directive to severe geomagnetic disturbances only. The amendment specifies that any action directed by the commission must be cost-effective and at a minimum consistent with the Federal Energy Regulatory Commission's reliability standards. It removes language that prohibits a transmission and distribution utility from collecting from ratepayers costs to address the failure of the system due to geomagnetic disturbances or electromagnetic pulses.

The amendment changes the specific mitigation measures the bill requires the Public Utilities Commission to direct transmission and distribution utilities to undertake to protect their systems from geomagnetic disturbances and electromagnetic pulses and instead requires that the commission order transmission and distribution utilities to

Joint Standing Committee on Energy, Utilities and Technology

install and operate equipment to protect and monitor their 345-kilovolt transformers and other critical equipment against severe geomagnetic disturbances. This amendment requires the work to protect the 345-kilovolt transformers be completed no later than December 31, 2020, but the time frame for that work is to be determined from a collaboration between the commission and transmission and distribution utilities.

Committee Amendment "B" (S-216)

This amendment is a minority report of the committee. It removes the directive to the Public Utilities Commission to order transmission and distribution utilities to undertake actions to ensure their systems are protected from or able to negate effects of electromagnetic pulses and limits the directive to severe geomagnetic disturbances only. It also requires the commission to direct transmission and distribution utilities to monitor their 345-kilovolt transformers to ensure they are protected from severe geomagnetic disturbances. This amendment specifies that any action directed by the commission must be cost-effective and consistent with the Federal Energy Regulatory Commission's reliability standards. It removes language that specifies that all costs incurred by transmission and distribution utilities as a result of the requirements imposed under the Maine Revised Statutes, Title 35-A, section 3144 are just and reasonable for rate-making purposes. It also removes language that prohibits a transmission and distribution utility from collecting from ratepayers costs to address the failure of the system due to geomagnetic disturbances or electromagnetic pulses.

This amendment removes section 2 of the bill, which requires the commission by July 1, 2016 to direct transmission and distribution utilities to undertake specific mitigation measures to protect against geomagnetic disturbances and electromagnetic pulses.

In 2015 a minimum of \$1,000,000 must be transferred from the Public Reserved Lands Management Fund to the Affordable Heating from Maine's Forests Fund. Subsequent transfers are based on revenue accrued over the 2012 revenue amounts of the Public Reserved Lands Management Fund, subject to some limitations. The Efficiency Maine Trust is required to use the funding for measures that reduce residential heating costs and must prioritize rural and low-income residences.

This bill directs the Public Utilities Commission to select a distributed generation aggregator to gather individual owners of distributed generation assets together to maximize the supply benefits of distributed generation and compensate owners of distributed generation assets for the energy supply benefits they provide ratepayers, including benefits related to energy supply, energy capacity and renewable energy credits. Effective January 1, 2016, the bill repeals the renewable portfolio standard, which requires competitive electricity providers to demonstrate to the Public Utilities Commission that a certain percentage of their portfolio of supply sources for retail electricity sales comes from renewable resources, new renewable capacity resources and efficient resources. The bill repeals the provision governing net energy billing, which is a billing and metering practice under which a customer is billed on the basis of net energy over the billing period taking into account accumulated unused kilowatt-hour credits from the previous billing period. The bill changes the long-term contracting authority of the Public Utilities Commission

and specifies that it is the policy of the State with respect to long-term contracts to reduce electricity rates and costs for the State's residential and business customers and reduce pollution.

Committee Amendment "A" (S-217)

This amendment removes portions of the bill that direct the Public Utilities Commission to select a distributed generation aggregator. Lastly, this amendment authorizes the Public Utilities Commission to contract for energy efficiency capacity resources, either through a competitive solicitation or through a contract with the Efficiency Maine Trust.

The department is required to report its findings to the Joint Standing Committee on Health and Human Services no later than January 1, 2016.

Senate Amendment "A" To Committee Amendment "A" (S-173)

This bill is a concept draft pursuant to Joint Rule 208. This bill proposes to create well-paying jobs and to reduce the State's costs for avoidable, preventable, high-cost emergency room, hospital and nursing home care by investing \$1,000,000 in a pilot block grant program for nonprofit home health care providers to provide light housekeeping, shopping, cooking, budget and medication management and referral services and assistance with other activities of daily living under the supervision of a primary care physician. The commission must submit its report, including suggested legislation, to the Joint Standing Committee on Health and Human Services no later than December 2, 2015. SIROCKI	OTP-AM	H-372 S-264 BRAKEY

This bill provides for the notice, reporting and documentation of the use of restraint or seclusion of a client of a public or private institution that provides services that fall under the jurisdiction of the Department of Health and Human Services. This bill requires the staff responsible for a client subject to restraint or seclusion to attend a debriefing after an incident of restraint or seclusion and to conduct a meeting after three incidents involving a client in a one-year period to determine how to reduce the use of restraint or seclusion with that client. This bill requires the chief administrative officer of each institution under the jurisdiction of the Department of Health and Human Services annually to report the aggregate number of incidents of restraint and seclusion for that institution to the Commissioner of Health and Human Services and for the commissioner to report the aggregate number of incidents of restraint and seclusion for all those institutions to the joint standing committee of the Legislature having jurisdiction over health and human services matters and authorizes the joint standing committee to report out legislation based on the report. This bill provides for a complaint process for a client or parent or guardian of a client subject to restraint or seclusion at the institution level and at the department level if the complainant is dissatisfied with the institution's response.

Committee Amendment "A" (H-372)

This amendment replaces the bill. It requires public and private psychiatric institutions licensed under the Maine Revised Statutes, Title 22, chapters 404 and 405 to submit quarterly and annual reports to the Commissioner of Health and Human Services that include data regarding the hours and number of uses of restraint and seclusion as well as the maximum and mean duration of the uses of restraint and seclusion as those terms are defined in federal regulations. The commissioner is required to submit a report by January 1st of each year to the joint standing committee of the Legislature having jurisdiction over health and human services matters; the report must contain the data collected by the public and private psychiatric institutions for the previous fiscal year. The committee may report out legislation regarding the report. The first annual report, due January 1, 2016, may be partial and incomplete. By May 1, 2016, each public and private psychiatric institution must develop a policy for debriefing a client after the use of restraint or seclusion. The policy may not prevent a parent, guardian or designated representative from attending the debriefing.

Senate Amendment "A" To Committee Amendment "A" (S-264)

This amendment adds language to require that quarterly reports from psychiatric institutions be organized by unit, consistent with the requirements for annual reports. This language was inadvertently left out of Committee Amendment "A."

FREDETTE THIBODEAU	OTP-AM OTP-AM	

This bill revises the earnings from employment the Department of Health and Human Services disregards when determining benefit levels for recipients under the Temporary Assistance for Needy Families program in order to provide recipients who are working with a greater earnings disregard depending on the amount of hours they work per week and whether or not they are meeting federal work participation requirements. The bill also increases the number of months eligible individuals may receive transitional transportation benefits from 12 months to 18 months. The bill also authorizes the Department of Health and Human Services, beginning in fiscal year 2016-17, to use \$500,000 from the Temporary Assistance for Needy Families block grant to promote financial literacy and healthy saving habits of families with income less than 200 percent of the federal poverty guidelines by placing funds in family development accounts.

Committee Amendment "A" (H-420)

This amendment, which is the majority report of the committee, modifies the section of the bill relating to determination of benefit levels and eligibility for the Temporary Assistance for Needy Families program, or TANF. It provides that a gross income test may only be applied to applicants and not recipients of assistance. It also directs the Department of Health and Human Services, in determining benefit levels, to disregard the following amounts of earnings:

1. For a recipient employed 40 or more hours per week and who meets work participation requirements as defined in federal TANF rules, 100 percent of the gross earned income for the first full month of employment and the next consecutive month of employment, 75 percent of the gross earned income for the next six consecutive months of employment and \$108 and 50 percent of the remaining gross earned income for each additional consecutive month of employment thereafter;
2. For a recipient employed less than 40 hours per week and who meets work participation requirements as defined in federal TANF rules, 100 percent of the gross earned income for the first full month of employment, 75 percent of the gross earned income for the next six consecutive months of employment and \$108 and 50 percent of the remaining gross earned income for each additional consecutive month of employment thereafter;
3. For all other recipients with earnings from employment, \$108 and 50 percent of the remaining earnings; and
4. All actual child care costs necessary for work, except that the department may limit the amount disregarded for actual child care costs to \$175 per month per child or \$200 per month per child under two years of age or with special needs.

This amendment also provides that if an applicant for child care programs is determined eligible, child care assistance must be provided retroactively to the date of application. The amendment adds an appropriations and allocations section.

SANDERSON MCCORMICK	OTP-AM ONTP OTP-AM	

This bill requires an adult applicant for or an adult recipient of benefits under the Temporary Assistance for Needy Families, or TANF, program to be screened and possibly physically tested for the unlawful use of drugs. The outcome of testing may result in that person's being denied or losing TANF benefits if subsequent substance use disorder treatment is not successfully completed. The bill also repeals provisions that prohibit the State's denying food assistance and TANF assistance to a person who has been convicted of a drug-related felony.

Committee Amendment "A" (H-460)

This amendment, which is Report A of the committee, removes the sections of the bill that repeal provisions that prohibit the State's denying food assistance and Temporary Assistance for Needy Families, TANF, benefits to a person who has been convicted of a drug-related felony. It specifies that a person receiving TANF benefits who has been convicted of a drug-related felony and is within 20 years of that person's date of conviction is not able to reapply for cash assistance if the person fails a drug test, declines to enter a treatment plan or fails to meet the requirements of the treatment plan. It requires the Department of Health and Human Services to apply the same process to a person receiving food benefits who was convicted of a drug-related felony and is within 20 years of that person's date of conviction.

Committee Amendment "B" (H-461)

This amendment, which is a minority report of the committee, makes the following changes to the bill.

1. It removes the sections of the bill that repeal provisions that prohibit the State's denying food assistance and Temporary Assistance for Needy Families, or TANF, benefits to a person who has been convicted of a drug-related felony. It specifies that a person receiving TANF benefits who has been convicted of a drug-related felony and is within 20 years of that person's date of conviction is not able to reapply for cash assistance if the person fails a drug test and declines to enter a treatment plan or fails to meet the requirements of the treatment plan. It requires the Department of Health and Human Services to apply the same process to a person receiving food benefits who was convicted of a drug-related felony within 20 years of that person's date of conviction.

2. It requires the Legislative Council to conduct screening and testing of Legislators for illegal substances. If a Legislator is required to submit to drug testing and refuses, or if the Legislator tests positive for the unlawful use of a drug and refuses to enter into a substance use disorder treatment plan or enters into a substance use disorder treatment plan and fails to meet a requirement of the plan, the Legislator is ineligible for annual legislative salary payments and must reimburse the State for any salary payments made to the Legislator since the convening of the Legislature.

3. It requires the Governor's Office of Policy and Management to conduct yearly screening and testing of certain appointed state employees for illegal substances. If an appointed state employee is required to submit to drug testing and refuses, or if the employee tests positive for the unlawful use of a drug and refuses to enter into a substance use disorder treatment plan or enters into a substance use disorder treatment plan and fails to meet a requirement of the plan, the office is required to make a formal recommendation to the Governor that the employee be terminated or otherwise reprimanded.

This bill establishes an interagency comprehensive background check program to protect Maine citizens vulnerable to abuse, neglect or exploitation by individuals in positions of trust who are charged with the physical and financial care of these individuals. Providers are required to perform background checks prior to hiring new direct care workers as well as current on direct access personnel. The bill creates the Background Check Center, which allows direct access care providers to secure background information from abuse and neglect databases, sex offender registries, the registry of certified nursing assistants and direct care workers, professional licensing authorities, Medicare and Medicaid exclusion databases and criminal history record repositories. The bill enables the Background Check Center to provide a report that identifies offenses that disqualify an individual from employment as a direct access worker. It also authorizes a system of continued criminal record monitoring through a rap back program to ensure that employers are informed of any new disqualifying criminal offense that may occur after a direct access worker's initial background check. It provides for a conditional employment process that allows direct access workers to correct inaccurate background check report records and procedures to gradually implement background checks for current employees. The bill outlines compliance requirements including penalties and the impact of violations on provider licensing for noncompliance with the requirements. It amends existing background check and prohibited employment laws to use consistent language across all areas affected by the laws.

3. It requires a training program for certified nursing assistants or direct care workers either to pay for or secure a background check.
4. It adds a process for an individual who has a disqualifying offense to secure a waiver from the employment ban.
5. It clarifies that information provided through the Maine Sex Offender Registry is available to the Background Check Center.
6. It adds an appropriations and allocations section.

Enacted Law Summary

Public Law 2015, chapter 299 establishes an interagency comprehensive background check program to protect Maine citizens vulnerable to abuse, neglect or exploitation by individuals in positions of trust who are charged with the physical and financial care of these individuals. Providers are required to perform background checks prior to hiring new direct care workers as well as current on direct access personnel. It creates the Background Check Center, which allows direct access care providers to secure background information from abuse and neglect databases, sex offender registries, the registry of certified nursing assistants and direct care workers, professional licensing authorities, Medicare and Medicaid exclusion databases and criminal history record repositories. The Background Check Center provides a report that identifies offenses that disqualify an individual from employment as a direct access worker. It also authorizes a system of continued criminal record monitoring through a rap back program to ensure that employers are informed of any new disqualifying criminal offense that may occur after a direct access worker's initial background check. It provides for a conditional employment process that allows direct access workers to correct inaccurate background check report records and procedures to gradually implement background checks for current employees. It establishes a process for an individual who has a disqualifying offense to secure a waiver from the employment ban. It establishes compliance requirements including penalties and the impact of violations on provider licensing for noncompliance with the requirements.

This bill provides that the clinical review criteria used by a carrier in approving prescription drug step therapy must adhere to federal Food and Drug Administration prescription drug labeling and may not require failure on the same medication on more than one occasion for enrollees continuously enrolled in a health plan offered by the carrier. The bill also provides that the provisions may not be construed to prevent a health care practitioner from prescribing a medication for an off-label use or from prescribing a medication on more than one occasion when the health care practitioner determines it is medically appropriate.

If a carrier requires the failure on one or more drugs as a condition of prior authorization for a nonpreferred drug, the bill prohibits a carrier from collecting a copayment greater than the lowest cost preferred drug copayment in the same drug class from an enrollee that has satisfied the carrier's prior authorization requirements.

Committee Amendment "A" (S-104)

This amendment, which is the majority report of the committee, replaces the bill. The amendment provides that the clinical review criteria used by a carrier in approving prescription drugs may not prevent a health care practitioner from prescribing a medication for an off-label use, may not require failure on the same medication on more than one occasion for enrollees continuously enrolled in a health plan offered by the carrier and may not prevent a health care practitioner from prescribing a medication on more than one occasion when the health care practitioner determines it is medically appropriate.

The amendment also prohibits a carrier from requiring the failure on one or more drugs as a condition of prior authorization for a nonpreferred drug unless an enrollee has affirmatively agreed to the condition each time a carrier seeks to impose such a condition. The amendment does not restrict the cost-sharing imposed by a carrier.

LD 320 An Act Regarding the Tracking of Wounded Animals with a Leashed Dog PUBLIC 90

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
BLACK DAVIS	OTP-AM ONTP	H-76

This bill allows a person licensed to guide hunters to use one leashed dog outside of legal hunting hours to track and dispatch a bear wounded by the guide's client.

Committee Amendment "A" (H-76)

Current law provides for a license to use leashed dogs to track wounded animals and allows a person who holds such a license to provide dog tracking services to others for a fee without being licensed as a guide. This amendment, which is the majority report of the committee, replaces the bill and consolidates those provisions and makes the following changes.

1. It converts the license to use leashed dogs to track wounded animals from an annual license for \$27 to a 3-year permit for \$81.
2. It provides that a person must hold a big game hunting license to be eligible to obtain the permit to use a leashed dog to track a wounded animal and specifies that the permit only allows the tracking of a lawfully wounded animal.
3. It allows the permit holder to track a wounded animal outside of legal hunting hours.
4. It expressly gives the Commissioner of Inland Fisheries and Wildlife rule-making authority to regulate activities conducted pursuant to the permit.

Current law allows a licensed hunting guide to track and dispatch a client's wounded bear, deer or moose after legal hunting hours without a license to use leashed dogs to track wounded bear, deer or moose. This amendment relocates and changes that provision of law to provide that the hunting guide must obtain authorization from the Commissioner of Inland Fisheries and Wildlife to track and dispatch a client's wounded bear, deer or moose after legal hunting hours. 2. It provides that a person must hold a big game hunting license to be eligible to obtain the permit to use a leashed dog to track a wounded animal and specifies that the permit only allows the tracking of a lawfully wounded animal.

Chapter 90 relocates within the Maine Revised Statutes, Title 12, Part 13 the provisions of law regarding a licensed hunting guide's ability to use a leashed dog to track and then dispatch a client's wounded bear, deer or moose after legal hunting hours without a license to use leashed dogs to track wounded bear, deer or moose.

LD 942 An Act To Permit the Use of Firearm Noise Suppression Devices in PUBLIC 262
Hunting and To Provide for a Chief Law Enforcement Officer's
Certification for Certain Firearms

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MASON SHAW	OTP-AM	S-218

This bill removes the prohibition on the use of firearm noise suppression devices when hunting and provides that a person who is otherwise lawfully hunting may use such devices.

It also establishes a procedure for a person to obtain a chief law enforcement officer's certification under federal law for the approval of an application to transfer or make a firearm, requires that the certification be provided in a timely fashion unless the applicant is ineligible, limits the personal information required from the applicant, establishes a right to an appeal in the case of a denial and clarifies that under the Maine Tort Claims Act the chief law enforcement officer or an employee of the chief law enforcement officer making the certification is immune from liability.

Committee Amendment "A" (S-218)

This amendment replaces the bill but addresses both of the matters addressed in the bill: the use of noise suppression devices while hunting and requirements governing a chief law enforcement officer's certification of a federal application to transfer or make a firearm.

The portion of this amendment relating to the use of noise suppression devices:

1. Until August 1, 2018, allows a person to use a noise suppression device while hunting, as long as the person has lawful possession of the device and has not had a hunting license revoked as a result of a serious hunting violation;
2. Provides for enhanced penalties for a person who commits a hunting violation while in possession of a firearm with a noise suppression device;
3. Provides for the permanent revocation of a person's hunting license and the seizure and libel of the person's firearm and noise suppression device if the person commits a serious hunting violation while in possession of a firearm with a noise suppression device; and
4. Provides definitions of "hunting crime" and "serious hunting violation."

Joint Standing Committee on Inland Fisheries and Wildlife

The portion of this amendment regarding a chief law enforcement officer's certification on a person's federal application to transfer or make a firearm, including a noise suppression device:

1. Directs a chief law enforcement officer to provide the certification within 15 days of receipt, unless the officer has information that prevents the officer from providing the certification. A generalized objection to a person's possessing or transferring a firearm or a certain type of firearm is not sufficient;
2. Requires an officer who denies an application for certification to provide in writing the reasons for the denial;
3. Clarifies that a denial of an application or refusal or failure to provide a certification is a governmental action subject to appeal under the Maine Rules of Civil Procedure; and
4. Limits the information an officer may require from an applicant for certification and prohibits the officer from requiring access or consent to inspect any private premises as a condition of making a certification.

LD 1225 An Act Concerning Swim Area Permits

PUBLIC 252

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SHAW DAVIS	OTP-AM OTP-AM	H-307

This bill provides that a person may not establish or maintain a swim line or a developed swim area unless the length of the developed swim area or of the area delineated by a swim line is equal to or less than 50 percent of the entire length of the shore frontage of the property from which the developed swim area or the area delineated by a swim line extends or 200 feet, whichever is greater. The length of a developed swim area or of an area delineated by a swim line is measured parallel to the shore. The length of the swim line will determine where a line, rope or

Joint Standing Committee on Inland Fisheries and Wildlife

series of buoys used to delineate an area of surface water for the purpose of swimming may be placed.

Committee Amendment "A" (H-307)

This amendment, which is the majority report, replaces the bill. This amendment modifies the swim area law as follows.

1. It provides that a swim line or developed swim area may not exceed 50 percent of the entire length of the shore frontage of the property from which the developed swim area or the area delineated by a swim line extends or 200 feet, whichever is greater, except that in no event may the developed swim area or the area delineated by a swim line extend beyond the shore frontage of the property. The length of the developed swim area or of an area delineated by a swim line must be measured parallel to the shore.
2. It removes the special penalties for establishing a swim area without a permit. It leaves in place the general civil penalty applicable under the Maine Revised Statutes, Title 12, section 1806.
3. It removes the permit fee exemptions for governmental entities and recreational camps and requires that all permits expire after five years.
4. It provides that permit fee revenues go into the Boating Facilities Fund and may be used in administering the swim area law.
5. It provides that a permit for a swim line or a developed swim area may be issued only if the swim line or developed swim area is designed solely to provide recreational swimming opportunities for the public.
